

ROBIN: I'm trying to tell you that isn't what happened though.

MR. LEE -Ok, so what did happen then?

ROBIN-Well, we were in the science lab.

MR. LEE-Yes, I'm aware of that. How did you get in.

ROBIN-We thought that Mrs. Gale had left for the day, and Jeremy said that somehow the door was unlocked.

MR. LEE-So, it was Jeremy that started all of this then?

ROBIN-Well...yes sir.

MR. LEE-Then what happened?

ROBIN-Jeremy started grabbing all kinds of different ingredients and putting it in the bowl together. Then he turned on the flame and at first it didn't do anything.

MR. LEE-Yes...and.

ROBIN-Well, then it started to kind of boil over and smoke.

MR. LEE-Do you realize what kind of harm you could have caused?!!

ROBIN-Yes sir.

MR. LEE-So what happened to Kennedy?

ROBIN-She was with us. But, when we ran out after the smoke alarm went off suddenly she wasn't.

MR. LEE-She could have died!

ROBIN-We didn't realize...I didn't know.

MR. LEE-You didn't know what?

ROBIN-That she had asthma...we didn't mean to leave her there. I thought she was right behind us when we ran out.

MR. LEE-You're in serious trouble.

ROBIN-I know...I'm sorry Mr. Lee.

MR. LEE-I'm not interested in your apology. You can tell that to your parents when they get here.

ROBIN-Yes sir.
